Do not include credits which have been claimed in full in prior tax years.

**COLUMN INSTRUCTIONS**

**(a) Credit number.** Enter the credit number assigned by the Taxation and Revenue Department on Form RPD-41335, *Land Conservation Incentives Credit Application*. **(b) Date of qualified donation.** Enter the date of the qualified donation for which the land conservation incentives tax credit has been certified as eligible. Enter this date as shown on Form RPD-41335, or if transferred from RPD-41336.

**(c) Amount of credit approved.** For each credit, enter the amount of credit approved as indicated on Form RPD-41335, or if transferred, the amount transferred from Form RPD-41336.

**(d) Credit claimed in previous tax years or transferred.** For each credit, enter the total amount of credit claimed in all tax years prior to the current tax year. If part of the credit was transferred, add the amount of credit transferred to another taxpayer, together with the total amount of credit claimed in all tax years prior to the current tax year.

**(e) Unused credit.** For each credit, subtract the amount in column (d) from the amount in column (c).

**(f) Applied to the attached return.** For each credit, enter in column (f) the amount that is applied to the attached New Mexico income tax return.

When calculating the amount in column (f), apply the following rules:

- **Applying credits:** Apply land conservation tax credits in the order that they were approved. If you have both a carry-forward credit and new credit derived from a qualified donation during the current tax year, apply the oldest credit against the income tax liability first.
- **The maximum amount of credit claimed in a tax year.** The sum of tax credits applied to the tax due on the return may not exceed the income tax claimed on the New Mexico income tax return. That amount is the net New Mexico income tax calculated before applying any tax credits claimed.
